

The Immigration Union of Phoenix are considering the offers of the local newspapers to furnish large illustrated editions for gratuitous distribution throughout the eastern and middle states. It is likely one or two thousand dollars will be used in this manner, and it can be safely estimated that the investment will be one of the most profitable that could be made. All that is required to bring a great influx of people to the Gila and the Salt river valleys is the dissemination of reliable information regarding the resources and opportunities. They do not need the boastful but uncertain intelligence that this is a "wonderful" country, "full of astonishing possibilities," but they require a detailed account of the progress and developments already made, based upon actual fact and the proofs of the reliability of the information must be available. The syndicate owning the Coronado beach at San Diego expended half a million dollars in beautifying and improving their lands before offering a single lot for sale and the wisdom of their venture is shown by their rich reward. We must not expect to sell barren lands at fancy figures, but we must show what we can produce and convince visitors that we make no empty boasts. We must have the goods that are advertised ready for their inspection when they reach here. The people of Florence should lose no time in organizing for the creation of a legitimate boom, for such things are made; they never grow spontaneously.

The town of Flagstaff has been menaced with destruction through incendiary attempts to rid the place of its Chinese residents. The determination to force these people to leave has been so strongly expressed that the insurance companies have notified property owners of their intention to withdraw all policies unless decisive action be taken to protect the town. A public meeting was held last week and among other things a resolution was passed urging the Chinese to close out their business and leave or take their chances, and it is believed that most of them will heed the timely injunction. No threats of violence were suggested, but the firm tone of the resolution indicates that the people have assumed an attitude in the matter that must be respected. We are glad to witness such a peaceful and rational solution of the evil as the good people of Flagstaff have developed.

The tax levy of Pinal county has been fixed at \$2.70 on each \$100 valuation, which rate is considerably lower than that of any county in the Territory so far as it is known. The finances of this county are in splendid condition and the indebtedness is merely nominal. Warrants bring almost their face value and in a short time they will be cashed upon presentation. With such healthy public condition the people feel that they can invite immigrants knowing that no unusual burden of taxation will be imposed upon them. We have the best mines, the best stock ranches, the largest area and best agricultural lands, the most water, the lightest taxes and the brightest prospects of any other portion of Arizona.

Every indication points to the possibility of obtaining artesian water on the mesa lands to the south of Florence. The surface wells all show a strong current to the north and the rock stratification has a dip in the same direction. By penetrating these rock strata to considerable depth, say from one hundred feet and upwards, there is scarcely a doubt that a flow of water can be secured. It is certainly worth a trial, for success will make these lands among the most valuable in the west. Persons who are interested in the development of the country should combine and sink a well to test the feasibility of the project.

Prescott has made the right kind of a start for a boom. A public meeting was held and such a degree of enthusiasm was worked up that immediate action was taken to extensively advertise the resources of the place. Gov. Zulick and Ex-Governor Trille made stirring speeches and exhibited a willingness to help on with the good work. Such action is wanted here in Florence. We must have unity, energy and determination to shape the tide of events to our favor, and the sooner this fact is realized the quicker will the good times come.

The Tucson papers say that "barren" Reavis is photographing the boundary monuments of the so-called Peralta grant. If any of the alleged monuments be now standing the "barren" doubtless built them himself, although we have grave doubts of his having performed labor of any kind. One of his "ancient" monuments is no less than the reservation monument of the Pima agency, and it was built within the memory of a dozen living witnesses. We are inclined to believe that the "barren" runs to shadows, like his alleged land grant.

The California newspapers tell of a lady who found \$20 and in less than a week realized \$1250 by speculating in real estate with it. The sea-serpent story has at last found a formidable rival and our own famed Benson liar is doomed to dwell in the atmosphere of his own eclipsed imagination, a victim of the superior fabrications of this more successful Arizona.

The Pleasant Valley tragedies of the past few weeks add nothing to the good reputation of Arizona, although it is believed that much that is really beneficial to the moral atmosphere was accomplished when the life went out of the seven rustlers. It is a species of Kilkenny cats combat, if the reports be true, that should happily terminate in a manner much like that historical event. Happy Valley should change its name to "Happy Hunting ground" as the most appropriate appellation and all the rustlers should be sent to its placid reservation.

There is a prevailing disposition on the part of the esthetic American people to throw around the superannuated hulks of our navy a halo of sacred veneration, in the creation of a species of marine brie-a-brac. If this sentimental craze is carried much further the whole navy of this glorious nation will come within the limits of eligibility to like preservation. Better turn the old Hartford and the Cyano into schools of honesty for bank cashiers and graduate them at the bottom of the sea.

On the 5th of next month General Nelson A. Miles will be presented with the beautiful gold sword, the hearty testimonial of the grateful people of Arizona in appreciation of his services in conquering the raiding Apache Indians. The ceremonies will take place in Tucson and an imposing affair is contemplated. Citizens from all portions of the Territory will be present and the grand occasion will assume the phase of a public event without counterpart on the Pacific Coast.

People suffering with almost any kind of disease and especially those afflicted with pulmonary complaints will find permanent relief by sojourning in the mild climate of southern Arizona, where the atmosphere is dry, pure and bracing. It is marvelous how soon consumptives acquire strength and flesh after coming here, and absolute cures are not infrequent. Our healthful climate alone is a sufficient inducement to bring hither a large population.

The marriage contract of "barren" Reavis and the "missing link" purports to have been executed in San Francisco on December 31st, 1882. Subsequently Reavis wanted to marry Miss Bridger, of Los Angeles county, California, probably for the purpose of making a "missing link" or direct heir of the Peraltas of that lady. Miss Bridger can congratulate herself upon her narrow escape from becoming a "baroness" and a missing link in the "barren's" harem.

The coal now mined at the Deer Creek coal fields is said to coke easily and to be quite an excellent article of its kind. The smiths of Globe use it in their forges and pronounce it good. If these be facts already demonstrated the deposits of this excellent fuel should not be suffered to remain undeveloped much longer.

It is believed that many of the California tourists during the coming fall and winter will resist the California methods of being "held up," and come to Arizona for legitimate investments. We have more tempting opportunities than California and if the bell-wether only turns this way the whole flock will follow.

After undergoing the stage of fermentation Civil Service reform is found to have acquired a degree of acidulation that is unpalatable to its manufacturers. George William Curtis is even seeking a change of diet and has arrived at the conclusion that the difficult process is not yet sufficiently understood.

The recent riot at Wilkesbarre, Pa., caused by a preacher's endeavor to stop the payment of the miners on Sunday, is termed by a California paper "a semi-religious riot." This was probably suggested because there were plenty of pious words employed.

Many residents of Florence are anxiously awaiting a visit from Peralta Reavis. It is a noticeable coincidence that in expressing such a wish they involuntarily glance up at Mr. Ochoa's hay derrick with its suggestive rope playfully swaying in the breeze.

Railroad talk begins to engross the attention of our people and there are rumors of speedy connections with both transcontinental lines that traverse the Territory. A railroad will complete the cup of our happiness, and two will fill it to overflowing.

The supply of the recent pamphlets devoted to the citrus belt of Arizona, compiled by the Commissioner of Immigration, was evidently limited. We have neither seen a copy nor know of any person in Florence having received one.

We would be excessively pained over the news that the Ameer of Afghanistan is critically ill, but for the fact that it is Ameer political lie gotten up in Russia's interests.

The Benson liar has created thousands of springs on the San Bernardino ranch, near the Sonora line. No peat-up Utica confines his expansive imagination.

The stove moulders of the United States and Canada will strike while the iron is hot if their wages are not increased.

The southern California boom is evidently over. There has not been a new railroad projected for three long days.

Judge Hackney of Globe Belt: We hope Salari, of Phoenix, will get left, as he should for housing and victimizing so great a fraud as Reavis, an enemy of the community in which Salari gains a livelihood.

## Arizona News.

John Wasson has sold his cattle ranch. The tax roll of the city of Prescott, foots up \$840,770.

A quartz mill is on the road for Groom Creek, near Prescott.

San Augustine feast will commence in Tucson on August 27th.

Col. C. P. Head of Prescott died in Oakland on the 19th inst.

Forged orders on the Clifton Copper Company are in circulation.

John Dunbar is working hard for the interests of Salt River valley.

Well boring for the University will begin about the first of September.

The Bank of Flagstaff has not closed its doors as has been reported.

The stock men on the Santa Cruz say they have plenty of grass this year.

The Granville mining district in Apache county promises to boom very soon.

Prescott had a grand mass meeting on the 23d to take steps to boom the town.

In and about Solomonville the grass is reported as good and stock in fine order.

George H. Stevens' barn and shed was unroofed by the rain storm on the 14th inst.

Marion of the Courier is taking a great deal of interest in the old soldier's welfare.

Alonso Bailey of Globe, shipped last week 5500 ounces of silver bullion from Globe.

The owners of the Mowry mine in Pima county, contemplate erecting a forty ton smelter.

The Buckeye ditch at Gila Bend will be ready to receive water before the close of August.

Thirty thousand pounds of sugar left Wilcox for the Indians at San Carlos, last week.

The Walnut Grove dam is nearing completion. There are about 15 feet of masonry yet to be laid.

Mr. John W. Gray and Robt. J. Kerr, formerly of Tucson, have opened a real estate office in San Diego.

J. M. Quiggle, the artesian well borer, has gone to the Union mine in Maricopa county, to bore for water.

The ice machine at Thomas is a failure so far. The water tank on the hill is said to do well as an ornament.

The School trustees of Globe have elected B. J. McGinnis as principal and Mrs. R. H. Ogden as assistant teacher.

General Miles denies that troops are being concentrated at San Carlos, and says there is no danger of an outbreak.

Rev. Calfee of Globe has gone to Monterey, Cal., to attend the annual conference of the Methodist Episcopal church.

In a recent storm at Globe the lightning entered the telegraph office, burning battery wires and doing some injury to the walls.

The assignee of the defunct bank of Hudson & Co. has declared another dividend of 10 cts. This makes a total dividend of 35 cts.

Mr. R. A. Smith of Riverside, while storming baled hay stepped upon a hay hook, which entered his left foot. He was laid up several days.

Epitaph: "Four large American horses are at Elfr's ranch, in the Chiricahua, where they await an owner. They are branded with a curved X."

A change is to be made in the time table of the Southern Pacific railroad. East and west bound trains will take supper and breakfast at Tucson.

Ex-Gov. R. C. Powers, who has put in several miles of cement water pipe for the water storage company in Walnut Grove, reports it as very successful.

A move is on foot by members of the Grand Army in Prescott, to get the mineral collection at New Orleans and place it on permanent exhibition in St. Louis.

The Prescott people are getting excited. Two transfers of real estate in one day. A wonderful showing, one transfer was to Mamie Leroy (colored) for \$1,400.

Through the efforts of Don Carlos Velasco, editor of the El Fronterizo, the sufferers of Baviage, Sonora, have received contributions from nearly every town in the Territory.

J. V. Bright, charged with the murder of the Clanton was tried before the justice at Solomonville on the 14th inst. The prosecuting witness did not appear and the charge was dismissed.

Samuel A. Hensley has been commissioned by Gov. Zulick to represent Arizona at the celebration of the adoption of the Constitution at Philadelphia, on the 15th, 16th, 17th of September.

It is interesting to learn that mines of prospectors in the districts adjoining Tucson are now being worked as never before. Nothing like it before. It develops your properties and at the same time gives you some money.—Star.

The northern boundary of the White Mountains on San Carlos reservation as now defined: 1181 miles long, skirting the Black Mesa; beginning at a point 109 degrees, 30 min. west longitude, and ending due north of Sumbro or Pimosa Butte.

A letter received by the Tombstone Epitaph from our Delegate to Congress, dated August 9th, locates him at the Hoffman House, New York. Mark writes that the grass is quite short on Broadway and that he may be expected home soon.

The assessment roll of Gila county, for the present year shows cattle to the value of 17,102, valued at \$189,427; 1,640 horses, valued at \$42,200; 200 mules, valued at \$6,620; 119 asses, valued at \$910; 2,200 sheep, valued at \$2,825; 10 goats, valued at 15; 190 swine, valued at \$546.

The rates on postage applicable to letters, addressed to Mexico, are as follows, viz: letters, 2 cents per one ounce or fraction of an ounce; second class matter, one cent for each pound, or fraction of a pound; third class matter one cent for each two ounces, or fraction of two ounces.

Mr. Gird arrived in town last Thursday evening from La Bota ranch, Sonora. He reports frequent and pouring rains in that region, and the grass excellent. This ranch lies immediately adjoining Pima and Cochise counties on the south for a distance of eighteen miles, and is one of the best in Sonora. Contracts have been let for fencing the same. A large force of men are now at work, and the wire is on the way from the east.—Tombstone Epitaph.

## No Need Of Catching Cold.

Speaking of colds, I have a theory that no one need ever have one unless he chooses; in other words, that it is quite possible so to train the skin, that wonderful organ which is generally looked upon as the paper wrapper to our human bundle, as to render it non-susceptible to the sudden changes of temperature or atmospheric moisture, whence colds come. And as this is exactly the season to commence such a system of peller education, as it has proved effective in many instances within my own knowledge, and as it is within easy reach of every one to try, I write it here. The theory is that no skin that has been exposed freely for half an hour at the beginning of the day to a temperature lower than it will encounter through the day, will note small changes or be affected thereby. A cold is simply a nervous shock, received by the myriads of minute nerve terminals that bristle over the surface of the human body, transmitted to the centers and so back again to mucous membrane, the peculiar seat of this special irritation. Let us then so train these sensitive fibres that they will pass by, unnoticed, changes of atmospheric condition, and the matter is accomplished.—From The American Magazine for September.

The Silver City Enterprise says, the Carlisle Mining Company is likely to build a standard gauge railroad to Lordsburg.

## 500 HEAD

OF  
Stock Cattle for Sale.

For sale, 500 head of good stock cattle at a bargain. Address,  
J. KENNEDY, Redington, Arizona.

## Delinquent Sale Notice.

PINAL CONSOLIDATED MINING CO.

Location of principal place of business, San Francisco, Cal. Location of works, Pioneer District, Arizona. Notice—There are delinquent upon the following described stock, on account of assessment No. 7, levied on the 11th day of July, 1887, the several amounts set opposite the names of the respective shareholders, as follows:
